

Ask Me About Registering for the New **Pocket Patient App!**

The patient portal, is an on-line tool allowing you access your medical records, test results, medication history, and includes the ability to request medication refills and communicate with your care team.

Once you have registered for the patient portal you can access your records online or by downloading the smart phone App: Pocket Patient.

Pocket Patient will allow you to view, download, and transmit your medical information for your personal use.

**LEARN HOW TO DOWNLOAD THE
POCKET PATIENT APP! ▶**

USE POCKET PATIENT TO:

Access To Your Patient Portal
Communicate With Your Provider
